Anton Kovalenko

Middle Full-stack Developer

Antalya, Turkey

Summary

My name is Anton, I am 18 years old.

Node.js/Vue.js Fullstack developer
Commercial development, freelance and personal projects

I am engaged in development of the high-loaded systems, requiring "special approach" and stability.
I've been involved in implementing attendance systems for institutions, broadcasting systems, distribution systems, intranet solutions.

Experience

Harmonize.Ai
Middle Backend Engineer
December 2022 - Present (3 months)
Seattle, Washington, United States

IO
Full-stack Developer (Node.js/Vue.js)
June 2021 - August 2022 (1 year 3 months)
Dubai, United Arab Emirates

Developed high-loaded browser games for delivery to company partners.

During this time I implemented 6 games from scratch and rewrote 4 existing games.

Designed and implemented internal tools for testing.

Used Node.js on the backend and Vue.js on the frontend.

Dolphin
Full-stack Developer (Node.js/Vue.js)
April 2022 - July 2022 (4 months)
Larnaca, Larnaca District, Cyprus

Involved in the development of cloud applications for working with advertising in social networks (TikTok, Facebook), as well as the company's subsidiary products.

Participated in design and development of anti-detect browser Dolphin Anty.

Used Node.js and PHP on the backend and Vue.js on the frontend.

Dolphin
Fullstack Developer (Node.js/Vue.js)
January 2021 - August 2021 (8 months)
Larnaca, Larnaca District, Cyprus

Developed cloud application for working with advertising in social networks (TikTok, Facebook)

Started to develop an anti-detect browser Dolphin Anty.

Used Node.js and PHP on the backend and Vue.js on the frontend.

SUPER-SMM
Node.js Backend developer
November 2019 - October 2020 (1 year)

Developed a platform to work with advertising in social networks (VK, Facebook, Instagram).

Most of the stack was based on Google Firebase.

Developed from scratch a large number of product modules.

The work of one of the most massive modules was to move stories from Instagram to VK in real time. Because it was very problematic to implement such an idea through Instagram API - the module worked with the help of browser automation (Selenium).

Freelance
Freelance Web Developer
June 2015 - October 2020 (5 years 5 months)

Engaged in the development of personal projects.

Took orders on freelance, developed websites, desktop applications.
